S·N·G
BARRATT

FRESH OFF THE LINE...

At SNG Barratt, our mission has always been to keep every Jaguar on the road, whatever it takes. As the world's largest independent manufacturer and supplier of Jaguar car parts, we never stop working to expand what's possible for classic and modern Jaguar owners alike. That's why our New to Range (NTR) programme is one of the most important things we do, and one of the most valuable things we offer to our customers.

NTR parts are added to our catalogue all of the time and include many components that were previously unavailable anywhere in the aftermarket, items that have been redesigned or improved based on customer feedback and real-world performance, or parts that we've identified as critical missing pieces for a particular Jaguar

model. In every case, the goal is the same: to give Jaguar owners more options, more confidence, and more complete access to the parts they need. Our NTR additions span the full breadth of the Jaguar range — from iconic E-Types and classic XKs to the Mark 2, XJS, and beyond. Whether you're a concours restorer looking

for the last piece of a puzzle or an enthusiast trying to keep a daily driver on the road, new range additions are developed with you in mind.

*More
inside!*

THE RESEARCH BEHIND EVERY NEW PART

Adding a part to our range is never a casual decision. Each new line item is the result of careful research, real customer intelligence, and deep technical knowledge built up over decades.

Our team studies enquiry data including the questions customers ask, the parts they can't find, the jobs they're struggling to complete and cross-references this with our extensive knowledge and original engineering and specifications.

Where original parts no longer exist, we go further. Our in-house manufacturing facilities in Bridgnorth, UK, allow us to reverse engineer components from surviving examples, produce tooling from scratch, and manufacture parts to a quality that meets or exceeds the original specification. We also work closely with our trusted network of approved suppliers, drawing on expertise across engineering, materials, and production to ensure every new part is fit for purpose.

Fit and function testing is a non-negotiable step. Before any part appears on our shelves or website, it is assessed for correct fitment, durability, and reliability. Our technical team verifies compatibility across model variants and production years, reducing the risk of errors and saving customers both time and money on the workshop floor.

THE BENEFITS FOR YOU

Every time a new part joins the SNG Barratt range, it creates a direct benefit for Jaguar owners and restorers. With over 300,000 parts and accessories available worldwide and warehouses across the UK, Europe and the USA, a new range addition means global access, fast dispatch, and the reliability of ordering from a supplier you trust.

For restorers, NTR parts can be the difference between completing a project and shelving it indefinitely. Some components simply do not exist anywhere else in the market. When SNG Barratt manufactures a previously unobtainable Jaguar part, it breathes new life into vehicles that might otherwise be condemned, preserving automotive history one component at a time.

Quality is another key advantage. Our NTR parts are produced to exacting standards, and many come backed by our new 24-month warranty, giving

The LUCAS CLASSIC

Extra Added Attraction

THIS IS THE BIG SHOW

THE LUCAS CLASSIC IS BACK!

Saturday 20th June 2026
Shelsley Walsh Hill Climb, Worcestershire

SAVE THE DATE

The Lucas Classic is returning to Shelsley Walsh for 2026, and it promises to be the finest edition yet. Brought to you in partnership with SNG Barratt and Britpart, this is a day that celebrates everything we love about British classic motoring: the noise, the history, the community, and the sheer joy of seeing extraordinary machines doing what they were built to do.

Shelsley Walsh is no ordinary venue. As the world's oldest motorsport venue still operating on its original course, it carries the weight of over a century of racing history in every twist of its famous 1,000-yard hillclimb.

Gates open at 9am, with the track firing into life at 10am. Throughout the day, spectators will be treated to an impressive parade of classic cars and 4x4s synonymous with the Lucas and Girling brands that have supported British marques including Jaguar, Land Rover, Aston Martin, Austin Healey, Triumph, MG and Mini for over a century. Trackside commentary and interviews will be hosted by TV celebrity Fuzz Townshend and other familiar voices from the classic motoring world, keeping the atmosphere buzzing from start to finish.

Away from the track, the event is every bit a family day out with traditional stalls, live music and a wide selection of food and drink. Weather permitting, the traditional

Spitfire flypast during lunch is guaranteed to raise the hairs on the back of your neck. The day draws to a close with a traditional hog roast and prize giving around 5.30pm.

BOOK TICKETS NOW

Spectator and Vehicle Display tickets for classics in the showground are now on sale for owners and enthusiasts alike. This is a ticket-only event with no tickets will be available to purchase on the day, so don't leave it too late.

BOOK NOW AT
THELUCASCLASSIC.COM

WANT TO TAKE YOUR BRITISH CLASSIC UP THE HILL?

If you own an interesting British classic car or motorcycle, this is your chance to do something special. We're inviting applications to drive or ride up the legendary Shelsley Walsh hillclimb at The Lucas Classic 2026.

This informal, untimed run is about participation and celebrating great British machinery - not competition. Drivers and passengers must wear helmets and long clothing covering arms and legs. Successful applicants will join an exclusive paddock group and feature in the official event programme.

To apply, email marketing@sngbarratt.com with your vehicle's make, model, year, a brief history (max 100 words), and photographs. Use the subject line Lucas Classic 2026 Hillclimb Application. Closing date: Sunday 19 April 2026.

Successful applicants can purchase a hillclimb/paddock ticket for £35 plus booking fee (general entry required). Camping is available Friday and Saturday at £15 plus booking fee per person, per night.
